**Love Reading (26/04/05)**  
Each month the editors of this site select at least three new books in each genre (from Crime & Thriller to Biography, Classics or Contemporary Romance) and make the first chapter of each of their featured books available for free download. If you like what you read you can find suggestions of similar writers and buy from the site (or elsewhere!) - but you can download as many first chapters as you like with no obligation to buy.

**>> Google Maps UK**  
Map sites are like the old cliché about buses - you wait for ages for a good new one to come along then two turn up at once. Hot on the heels of **Map 24** comes Google Maps UK, which like pretty much everything else that **Google** turns it's hand to, is fast, nice and simple to use, in fact it just works! No clicking to load a new page - just drag the map around to follow a route, with clear, easy instructions and no irritating adverts to distract you.
